ACO Access

Rhinocast®

Mandurah Forum Redevelopment, Mandurah, WA

Mandurah Forum Shopping Centre, 72km south of Perth, has doubled its size from a recent redevelopment. The centre now offers 220 stores in addition to major retailers, David Jones, Target, Kmart, Big W, Coles and Woolworths. To cater for over 3,000 cars, a new multi-deck and shaded rooftop car park was also constructed.

Project Design Brief

The shopping centre included a selection of floor finishes overlying new cable infrastructure for additional lighting, power, communications and CCTV. So that tile patterns could be maintained, designers needed all access covers to blend discreetly whilst allowing for accessibility.

ACO Solution

- **Rhinocast®** single-part recessed access cover with decorative edge

Benefits

- The 40mm high stainless steel decorative edge allows the cover to be filled with the adjacent flooring material, providing a uniform aesthetic finish
- All covers are designed to meet Australian Standard AS 3996 Class B

Other ACO Products Used

- Cable pits (ACO Cablemate)
- Trench drains (ACO Drain)

PF2019-20B
